

Dear students of 6b,

as we are going to see each other on 3rd of June again there will be only two more workplans for you. Then we are going to continue with more or less regular teaching in class. This workplan covers this week and the 3 days of next week.

The system is going to stay as it has been:

Writing tasks: please write them as a word file and return them to martin.kaukal@gmx.at until the final date. I will correct and return those tasks electronically. For worksheet and student's book exercises you will receive solutions after the final date and **you have to scan the worksheets or exercises in the book before the final date and have to send them by e-mail until the final date!**

In case of questions you can of course always ask via e-mail or WhatsApp.

I hope you are well and we will see each other soon!

Task	Final Date	Comment
Unit 7 Ex. 21b as described	May 20 th	scan and hand in by e-mail
Unit 7 Ex. 23 Underline the words in the text, write the opposite (if there is one) next to the words	May 20 th	scan and hand in by e-mail
